

# Senior Software Engineer

## Contract Role – Six Months

### *What you didn't know about GetCapital?*

GetCapital offers multi-product finance solutions to their Finance Partners and customers using revolutionary credit platform designs. We are one of LinkedIn's hottest Australian companies to work for and we are kicking goals with how we run our business whilst winning many awards along the way including AFR's Fast 100, Deloitte's Technology Fast50, SmartCompany's Smart50 and Deloitte's Asia Pacific Technology Fast 500.

### *Your role*

Are you looking for a role where you will be responsible for developing new services and features that supports the upscale of our award-winning business? You will join a team of high-performing developers and thrive within a progressive Agile environment. Our technology environments include C# .Net, React JS, Docker, Kubernetes and a range of Azure Cloud based services.

Your delivery-focused mindset and proven experience as a digital innovator will help take your career and GetCapital to the next level. You will have the opportunity to work within a diverse and phenomenal culture that thrives on its agile and transforming environment. This role is also has a view to move from contract to a permanent role.

### *What you will do*

- Work closely with business stakeholders to understand business drivers
- Investigate new product ideas and innovations that will provide an improved customer experience
- Design, prototype, develop and test new product features and initiatives in collaboration with business stakeholders
- End-to-end product delivery responsibility in Agile environment
- Work with relevant members of scrum teams to ensure delivery of new initiatives
- Use your strong analytical mindset and leverage data to make product decisions
- Track and report on success metrics for newly launched product features

### *About you*

- 5+ years .Net experience
- 2+ years React/JS experience
- Strong RESTful API knowledge and API best practices
- Strong experience with event-driven microservices and APIs in a distributed architecture, decoupling from an existing legacy platform
- Good understanding of building and scaling applications within Azure
- Experience with MS SQL
- Experience working in Scrum teams
- Strong experience with DevOps and CI/CD processes, tools and containerisation
- Passioned about TDD and Automated testing

### *What it's like to work here*

We offer competitive remuneration and a company bonus, flexible working at home, a fast paced, energetic environment as well as an inviting, open-plan office space in North Sydney. We have our own outdoor deck, full kitchen, and lovely breakout spaces. We are a short walk from North Sydney train station and can be reached by many bus routes. There are fantastic lunch options nearby and we also enjoy a coffee shop in our building. We also offer free breakfast groceries in our kitchen and regular fruit deliveries. Our staff say it's a great place to work with engaged Leadership Team and a fantastic growth story. We hold regular events to get the team together and if you work for us, you get your birthday off!

If you like the sound of this, we would love to hear from you. Please send your resume [jointheteam@getcapital.com.au](mailto:jointheteam@getcapital.com.au)
